

KanCare 3.0 Public Meetings

Join Us to Learn More About Medicaid

The Kansas Department of Health and Environment will host educational meetings throughout the state in October so that Medicaid providers and advocates can learn more about changes coming to KanCare's managed care organizations (MCOs).

Staff members will be available to answer questions and accept feedback from attendees. Spanish language and American Sign Language interpreters will attend each session to assist you. Members' family members are also welcome to attend. To learn more, visit kancare.ks.gov/public-meetings.
