

FOR IMMEDIATE RELEASE

State-of-the-Art Home Plus Residence Now Open at Aldersgate Village

Innovative assisted living option combines the comforts of home with customizable age-in-place care for seniors

Topeka, Kan.— Home Plus at Aldersgate Village, the newest service offering at the southwest Topeka life plan community, is now open.

Home Plus is an innovative housing option that marries the comforts of home with individualized levels of care. Aldersgate Village's Home Plus, officially christened as Nancy's Place on May 29 in honor of longtime supporter Nancy Lewis, features 12 private suites with full baths; a staffed kitchen; and shared dining and living areas.

This new concept in senior living offers residents personalized care and supervised nursing as needed, along with housekeeping, laundry and other on-site services. It differs from traditional housing options because Home Plus is designed to accommodate 12 or fewer residents, and a select group of staff members provides all services in the home, including meal preparation in the inviting kitchen. This setting encourages the forming of tight-knit relationships among residents and staff and enables residents' schedules, meal preferences, and daily activities to be easily accommodated.

"Across our community, our goal is to provide the warmth of home with personal, individualized care for residents, so they can bond with their caregivers and each other and feel safe and comfortable," said Jerry Ney, CEO of Aldersgate Village. "We are confident that Home Plus will continue that caring tradition," he added.

Although the Home Plus model of care is steadily growing in popularity, Aldersgate's Home Plus stands out from other facilities because of its state-of-the-art design and location within an expertly staffed life plan community. On the Aldersgate campus, Home Plus residents will have access to educational, spiritual and recreational activities; an outpatient clinic that provides laboratory, dental, podiatry and audiology services as well as physician visits; and short-term rehabilitation services and individualized inpatient therapies.

While many companies that operate Home Plus facilities retrofit older homes, Aldersgate Village has constructed an all-new home that is specifically designed with its residents in mind. For more information about Aldersgate Village or Aldersgate Village Home Plus, visit aldersgatevillage.org.

About Aldersgate Village

Aldersgate Village is a life plan community located in Topeka, Kansas. Aldersgate offers a wide range of beautiful accommodations and top-level services, including independent living, assisted living, skilled nursing, home health care and hospice, The Recovery Center, and its newest offering, Home Plus. Established in 1904, the faith-based senior living neighborhood is open to people of all denominations and faith backgrounds. As a 501(c)(3) nonprofit organization, Aldersgate is driven not by profit but by ensuring that seniors receive compassionate, person-centered health care in a warm and welcoming community.
