CMS Issued New Memo April 7th to end most 1135 waivers in phases. [QSO-22-15-NH & NLTC & LSC \(PDF\)](#). CMS will end specified waivers in two groups: 60 days from issuance of their April 7, 2022 memorandum (June 6th) and 30 days from issuance of this memorandum (May 7th.) Looks like waiver that permits TAs ends June 6th and TA's that wish to continue providing direct care must complete CNA training within 4 months after that (approx. Oct 6th.) CMS pre-empts state law. Implications will be discussed with KDADS next Tuesday. More discussion with KDADS next Tuesday.

State Update

- Preliminary Medicaid Nursing Home Rates (for 7-1-22) will be published in the Kansas Register on April 14th. Average increase is 14%, but will vary based on individual provider cost reports and CMI. Make sure you look at your preliminary rate quickly and contact KDADS immediately if questions/concerns. Our reimbursement consultant Bland & Associates will have data to explain how your rate was calculated. bdick@blandcpa.com or kriskowski@blandcpa.com
- SPARK Health & Education Advisory Panel process and possible outcomes. We have proposals in for Employee Retention bonuses, emergency relief for temporary agency costs and assisted living add-on. Working on back up plan.
