

SAMPLE RESIDENT LETTER COUNTIES AFFECTED/ADJACENT

Dear [Resident/Tenant]:

As you may have heard in the news, the Coronavirus (COVID-19) has been identified as presumptively positive in [INSERT COUNTY NAME] County, Kansas by the Kansas Department of Health and Environment (KDHE). We do not have any cases of COVID-19 at our community, but this development triggers heightened infection control practices and protocols as recommended by the Centers for Disease Control (CDC). Please know that maintaining your health, wellness, and safety is our number one priority. We are taking steps now to prevent this illness and be positioned to respond quickly and effectively should it impact someone in our setting.

Effective immediately, [INSERT COMMUNITY NAME] will limit visitation on our campus as recommended by the CDC. For the health and safety of our residents, we ask that you please do not have visitors on our campus at this time unless it is an extreme situation which should be discussed with [INSERT NAME AND CONTACT INFO] in advance of their visit. Based on federal guidance, no visitor will be permitted into our community who meets any of the following criteria:

- Signs or symptoms of a respiratory infection, such as fever, cough, shortness of breath, or sore throat.
- In the last 14 days, has had contact with someone with a confirmed diagnosis of COVID-19, or under investigation for COVID-19, or are ill with respiratory illness.
- International travel within the last 14 days to countries with sustained community transmission. For updated information on affected countries visit: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>
- Resides in a community where community-based spread of COVID-19 is occurring.

Please know that the news about the spread of this new disease is concerning for us all. We understand that communication with your loved ones is incredibly important and encourage you to communicate with them in other ways such as the telephone, video chat, e-mail, or social media.

In addition to limiting visitation to prevent the illness on our campus, we are also focused on infection control best practices with our staff and residents. Staff have been trained on the symptoms of the Coronavirus (COVID-19), CDC recommended infection prevention techniques, and have clear protocols for staff to stay home and not come to work if they are ill or symptomatic. Remember that you are a key partner in keeping yourself and others healthy—wash your hands often; avoid touching your eyes, nose, and mouth; notify staff if you feel sick.

We continue to monitor information and guidance from KDHE and the CDC and are working with state and local public health and emergency preparedness officials to prevent the illness and strengthen our preparation for a possible outbreak.

We apologize in advance for any inconvenience this may cause, but we are keeping your safety as our number one priority. Communication is key, and we will continue to update you on any news, emerging issues, or changes in our regular operations. In the meantime, please do not hesitate to contact me at any time with questions or concerns you may have.

Sincerely,

[INSERT NAME AND INFORMATION]
