

Healthcare-Associated Infections & Antimicrobial Resistance Program

Register for KDHE Webinar: New Enhanced Barrier Precautions (EBP) Guidance for Long-term Care and Skilled Nursing Facilities Infection Prevention Practitioners

August 17, 2022

Hello Infection Prevention Partners!

KDHE is hosting a webinar to review new guidance on implementing Enhanced Barrier Precautions (EBP) aimed at reducing risks in your facilities for transmission of multi-drug resistant organisms (MDROs). Participants will understand the impact and burden of MDROs in nursing homes, need for use of EBP, indications for and use of EBP, and how to be successful in implementing EBP to reduce healthcare exposures to MDROs. Registration is required to attend, and space may be limited.

Webinar Details:

September 7, 2022, 2:00 PM Central Time
