

## Coronavirus (COVID-19) Testing Resources

### State Laboratory

#### **Kansas Health and Environmental Laboratories**

KDHE's Kansas Health and Environmental Laboratories (KHEL) is approved by the Centers for Disease Control and Prevention to perform COVID-19 testing. Click [here](#) for more information.

Call (785) 296-1620 or email at [covid-19@ks.gov](mailto:covid-19@ks.gov).

### Reference Laboratories & Diagnostic Testing

#### **Abbott Laboratories**

Abbott offers two products for addressing COVID-19, m2000 RealTime system and the ID NOW™. The ID NOW™ rapid test delivers lab-quality molecular results in 13 minutes or less. The SARS-CoV-2 EUA test can be used on Abbott's molecular instrument, the m2000 RealTime system. Multiple locations. Click [here](#) for more information.

Call 1(877) 441-7440 or email at [COVIDService@abbott.com](mailto:COVIDService@abbott.com). Click [here](#) go to the ID NOW support page.

#### **Cepheid**

Cepheid's GeneXpert system can run SARS-CoV-2 tests taking less than a minute to prepare the cartridge with the patient sample and approximately 45 minutes for GeneXpert to determine a result after a test cartridge is loaded onto the system. Multiple locations. Click [here](#) for more information.

Call 1(888) 838-3222 or email at [ordermanagement@cepheid.com](mailto:ordermanagement@cepheid.com).

#### **Clinical Reference Laboratory**

CRL has partnered with Roche to develop a total antibody screen that will be available starting May 4. The capacity for this serology based test will be over 40,000 tests per day. Based in Lenexa, Kansas, with multiple locations. Click [here](#) more for information.

Call 1(800) 445-6917 to speak to a representative.

#### **LabCorp**

Health care providers anywhere in the U.S. can order LabCorp's 2019 Novel COVID-19 testing and serological

antibody tests. Multiple locations. Click [here](#) for more information.

Click [here](#) to reach a LabCorp account representative.

#### **MAWD Pathology Group**

MAWD Molecular Lab is able to maximize their capacity and expertise in pathology and laboratory services to increase the availability of accurate same day COVID-19 test results. Based in Lenexa, Kansas. Click [here](#) for more information.

Call (816) 241-3338 or email at [customerservice@mawdpathology.com](mailto:customerservice@mawdpathology.com).

#### **MicoGenDX**

MicroGenDX's COVID-19 Rapid PCR Test has a 24hr turn around time from time of receipt. Based in Lubbock, Texas. Click [here](#) for more information.

Contact Adam Riggers, the Midwest Territory Manager, at (520) 850-2880 or at [adam.riggers@microgendx.com](mailto:adam.riggers@microgendx.com).

#### **The Great Plains Laboratory (GPL)**

GPL is now offering SARS-CoV-2 virus antibody testing service in Kansas with confirmed specificity for COVID-19. Based in Lenexa, Kansas. Click [here](#) for more information.

Call (913) 954-9998 or email at [sales@gpl4u.com](mailto:sales@gpl4u.com).

#### **Quest Diagnostics**

Quest Diagnostics is receiving COVID-19 antibody testing for COVID-19 using blood samples. Not currently collecting active infection COVID-19 testing in their Patient Service Centers. Multiple locations. Click [here](#) for more information.

Call 1(866) 697-8378 or click [here](#) to find a location near you.

#### **Viracor Eurofins**

Viracor offers COVID-19 SARS-CoV-2 PCR, and IgG and IgM blood-based serology testing for SARS-CoV-2. Based in Lees Summit, Missouri. Click [here](#) for more information.

Call 1(800) 305-5198 or email at [info@viracor-eurofins.com](mailto:info@viracor-eurofins.com).
