

Scrub It Forward

Christina Cobb

Director of Housekeeping and Laundry at Pleasant View Home

My ALP is a donation funded program designed to encourage employees to help employees. The program solves the need for required attire within the workplace. Those employees who do not have the means to supply their own uniform or become in need of it due to an emergency. Many staff and citizens from outside the facility have graciously donated scrubs. We have supplied scrubs to at least 15 new hires and multiple staff in an emergency.

I have learned that there are many caring and giving individuals. The need to provide this is eminent. One major turning point for me was to see that outpouring of love and generosity. Many do not see a need unless that need is brought to our attention. Having the ability to give to those who will become part of the team here at Pleasant View Home is a wonderful way to say "Welcome"! I have high hopes that this project will continue to move forward and grow.
