

Where The Benefits Are Worth More

EBI meets three goals

1. Premium affordability and stability
2. Access to care
3. High-value medical benefits and services

Bringing Back Benefits Choices

As an EBI Member, your organization can choose 2-4 plans from among our nine options to offer full-time employees. Our variety of plan designs will meet the needs of any participants. Low-deductible options cover major medical benefits and low-cost essential coverage plans ensure that everyone has access to care.

Plan rules and employee eligibility criteria apply.

Better Care, Better Outcomes

EBI has specialty support programs to help your employees navigate the complex healthcare system and identify best care options. Plan advocates work with your team and staff to educate, guide, and empower physically and financially health. Member service takes the weight of uncertainty out of seeking care.

EBI participants will access professional care management for serious conditions such as cancer, kidney disease, diabetes, and organ transplant. We include free 24/7/365 telemedicine appointments to diagnose, recommend treatment, and prescribe medication.

Avoid Overpaying for Major Healthcare

EBI assures that you, your employees, and the Plan are not paying for billing mistakes or overcharges, and that only fair and reasonable prices are paid to health care providers. This helps keep premiums under control. EBI also offers a price transparency service that provides upfront cost and quality transparency for both medical and pharmacy needs.

Networks

Employees can go to the hospital of their choice since they are not in a restricted hospital network with EBI. EBI's physician network is powered by PHCS, one of the nation's largest independent PPO networks. Participants can nominate any physician to join the network.

EBI is a non-profit healthcare plan overseen by its membership's elected Board of Trustees.

Join EBI to retake control of your organization's health, bottom-to-top.
